SPECIAL FLOODPLAIN PROVISIONS:

1. For RESIDENTIAL structures, the lowest floor (including basement) must be elevated one foot above the base flood elevation (100 – year flood elevation) as delineated in the Rogers County, Oklahoma Flood Damage Prevention Ordinance.
2. For NON-RESIDENTIAL structures, the lowest floor must be elevated to or above the base flood elevation, or floodproofed to withstand the flood depths, pressures, velocities, impact and uplift forces associated with the 100-year flood as delineated in Rogers County, Oklahoma Flood Damage Prevention Ordinance.
3. For ALL STRUCTURES, the foundation and the materials used must be constructed to withstand the pressures, velocities, impact and uplift forces associated with the 100-year flood.
4. All utility supply lines, outlets, switches and equipment must be installed and elevated so as to minimize damage from potential flooding. Water and sewer connections must have automatic back flow devices installed.
