

Press Release  
Rogers County Emergency Management  
April 28, 2025

### **May 3: Emergency Management to host public forum on road safety initiatives**

**Claremore, Okla.** - Rogers County is hosting a proactive forum for public input on Saturday, May 3, from 10AM until noon at the Rogers County Courthouse, located at 200 S. Lynn Riggs Blvd., on the second floor.

This forum aims to gather public input for developing a comprehensive safety action plan designed to prevent roadway fatalities and serious injuries over the next five years and beyond.

The forum will focus on identifying current areas that support planning, infrastructure, and behavioral/operation initiatives to prevent fatalities and serious injuries on rural county roads, including pedestrians, bicyclists, public transportation, motorists, and commercial vehicle operators by proposing improvements to enhance road safety in Rogers County.

If funding is awarded, which consists of 80% federal and 20% local contributions, the approved scope of work must be completed within five years.

The Rogers County Emergency Management team and the Safe Roads Committee encourage community members to participate and share their suggestions.

For those unable to attend the forum but wishing to provide essential input in helping create safer roads throughout the county, please email recommendations for road safety improvements to [eoc1@rogerscounty.org](mailto:eoc1@rogerscounty.org).

It is important to include the participant's address, and district related to the suggestions. To locate citizen's district, please visit:  
<https://rogerscounty.org/DocumentCenter/View/123/District-Map-PDF>.

Due to the Farmer's Market event being held at the courthouse parking lot on the same day, participants may use the overflow parking lot south of the courthouse.

Funding source: Office of the Secretary of Transportation, Department of Transportation DOT-OST-2025-0050 Listing #20.939.
